**DETAILED ACTION**

1. This Application has been examined. The claims 1-3, 5-21, 38-44, 46, 48, 65-68, 70-72, 74-76 and 78-79 are pending. The examination results are as following.

***Reasons For Allowance***

2. The following is an examiner's statement of reasons for allowance: The present invention is directed to a transmitting apparatus or a method for transmitting data to a receiving apparatus, comprising receiving means for receiving control information transmitted from the receiving apparatus, the control information containing a particular point of the data. The closest prior art, Yoshihide (US 6,694,136), Nakajima et al. (US 5,940,769), Sagesaka et al. (US 5,619,361) disclose a similar system, however, they fail to teach or suggest that the transmitting apparatus or method for transmitting to a receiving apparatus or method comprising the level direction of particular area containing the particular point of the data transmitted to the receiving apparatus and deteriorating the resolution in another one or more of the temporal direction, the spatial direction and level direction corresponding to the control information containing the particular point of the data as claims 1, 66, 70, 74, 78, 79; or a receiving apparatus or method for receiving data transmitted from a transmitting apparatus comprising the level direction of a particular area containing the particular point of the data and deteriorates the resolution in another one or more of the temporal direction, the spatial direction, and the level direction corresponding to the control information as claims 39, 67, 71, 75; or a transmitting and receiving apparatus or a transmitting and receiving method comprises at least one of the
